

**"Smart Logistics"**  
**"Simple"**  
**"Secure"**

**Your App is Your Gate**  
Digitalize the truck process

### Seamless

Real-time scheduling, automated gate access, and yard management in one app.

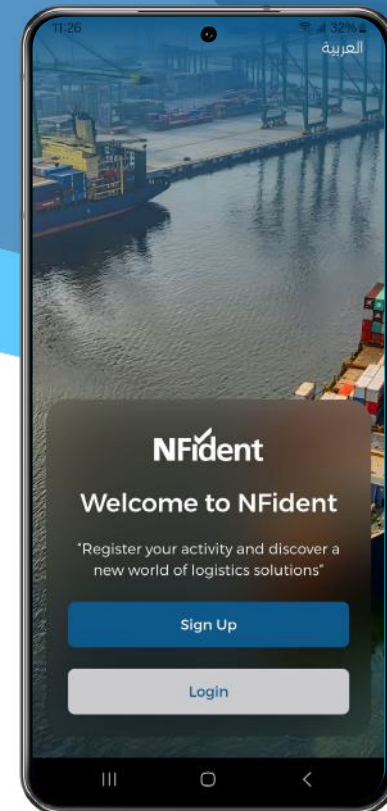

### Secure

Biometric verification, ISPS compliance, and paperless processing.

### Sustainable

Reduce congestion, emissions, hardware and infrastructure.

# Logistics shouldn't be complicated !

Every day, terminals and trucking companies face:

- Long waiting times at gates waste driver hours
- High costs for kiosks and barriers
- Paper-based compliance slows workflows
- Congested yards increase emissions and risks
- Heavy infrastructure requirements

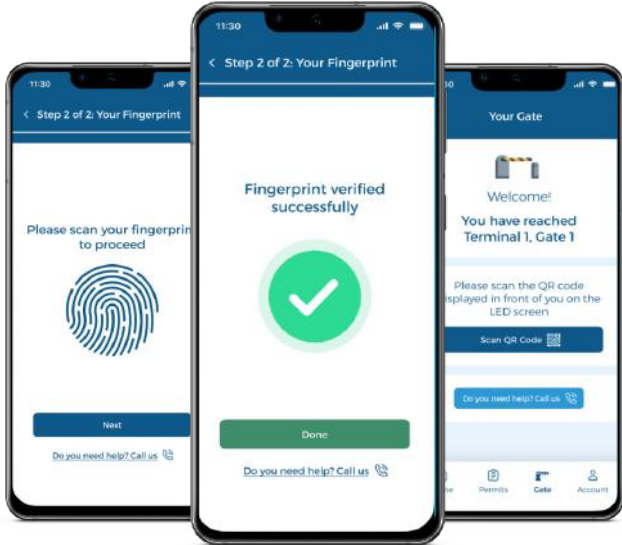

Terminals and trucking operations continue to face daily challenges that limit efficiency and increase operational pressure. . .

- High costs
- Congestion & Emissions
- Paper based
- Long waiting time

# One App Maximizing Control

A smart, secure and sustainable way to manage trucks from scheduling to yard operations

- Minimize dwell time
- Reduce operating costs
- Lower emissions
- ISPS-compliant security
- Eliminate paper
- Reduce hardware & infrastructure

- 1 Replacing physical cards and vulnerable pin codes
- 2 Allowing drivers to pre-register
- 3 Biometric verification
- 4 Live tracking and VoIP communication
- 5 Receive real-time updates
